

WEDDING FLOWER TRENDS 2019

WHAT'S IN AND WHAT'S NOT

SUSPENDED FLORALS

Both full ceiling-suspended arrangements and individual organic sculptural pieces.

NEON

Think neon signage set onto a flower or foliage wall.

COUNTRY CLASHES

Tropical foliage that isn't full on but is mixed with garden flowers - it's softer but still full of impact.

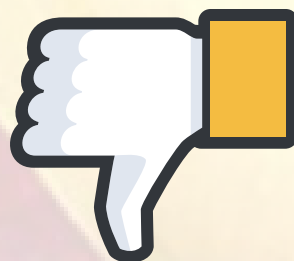

JEWELS & BOLD COLOURS

Jewel tones, corals, beiges and Club Tropicana: we're talking flowers that make a colour statement.

GRASSES

Full of romanticism, grasses, dried flowers and meadow style installations will be big this year.

SILK FLOWERS

Demand for silk arrangements has fallen as couples opt for the organic, fresh scented appeal of natural flowers.

JAM JAR FLOWERS

The popularity of flowers in jam jars has dipped in favour of mismatch glass bottles, antique cut glass vases and flower-heavy options.
